Inspection & Certification Partner

BS EN 14617

Agglomerated Stone Test

STC can provide variety testing services for our clients in construction and material fields.

Agglomerated Stone Test (BS EN 14617) is one of the test services we can provide:

BS EN 14617-1 Determination of apparent density and water absorption

BS EN 14617-2 Determination of flexural strength (bending)

BS EN 14617-4 Determination of the abrasion resistance

BS EN 14617-5 Determination of freeze and thaw resistance

BS EN 14617-6 Determination of thermal shock resistance

BS EN 14617-8 Determination of resistance to fixing (dowel hole)

BS EN 14617-9 Determination of impact resistance

BS EN 14617-10 Determination of chemical resistance

BS EN 14617-11 Determination of linear thermal expansion coefficient

BS EN 14617-12 Determination of dimensional stability

BS EN 14617-13 Determination of electrical resistivity

BS EN 14617-15 Determination of compressive strength

BS EN 14617-16 Determination of dimensions, geometric characteristics and surface quality of modular tiles

Please feel free to contact us if you have any test requests.

Please confirm our availability before submitting samples to us.
